

Recycling firm's new start on Pannal Business Park

RIPON Recycling, which was set up last November and specialises in the collection of redundant computer and electrical equipment across the region, is the latest business to occupy a site on the Pannal Business Park.

It has taken a 9,900 sq ft site

and managing director Stevie Hullah said he was attracted by the location close to major road networks, and the security on site.

Other tenants on site include Cooper & Hall, Different PR, Pure latex Bliss and Latex Innovations.
